- Figma
- Scrum

## LANGUAGES

Ukranian - native  
Russian - native  
English - A2  
Polish - A2

I am a motivated front-end developer with hands-on experience in web development and project management. I have a good level of coding in HTML5 and CSS3, I am familiar with JavaScript, I am learning TypeScript and NextJS, I also apply responsive approaches to web design and mobile solutions. Now I actively practice ReactJS, NodeJS and improve my knowledge. I am looking for a company where I can grow as a developer.

## PROJECTS EXPERIENCE

[ice-craem](#) | team project | [link](#)

- Landing page with responsive design. I managed the process of creating this project.
- HTML5/SASS/JS/Parcel

[filmoteka](#) | team project | [link](#)

- The application is written using java script. It is possible to search by the name of the film and by popularity, there is also a language switch and pagination. User registration is implemented.
- HTML5/SASS/JS/Firebase/Parcel

[web-studio](#) | personal project | [link](#)

- Landing page with responsive design. This application uses the BEM methodology and the SASS preprocessor.
- HTML5/CSS3/JS

[Image finder](#) | personal project | [link](#)

- The API of this application is taken from pixabay.com, third-party libraries such as "axios" (for HTTP requests), "simplelightbox", (for the image gallery and to enlarge the selected image) "notiflix" (to create notifications about events and the status of operations) are also used, infinite scrolling is implemented.
- HTML5/SASS/JS/Parcel/API

[Phonebook](#) | personal project | [link](#)

- The application allows you to create your own phone book. It is possible to create a personal account and add, edit and delete the created contact.
- ReactJS/API/MaterialUI

## WORK EXPERIENCE

Self employed.

Independently developed pet projects within the educational program.

In 2021, I started my journey in IT.

1. Coding using various technologies.
2. I am working on improving the quality of the code.
3. Work in a team.
4. Using the Scrum methodology.
5. All projects were completed on time.
6. I support and improve already created projects.

## EDUCATION

GOIT Online School

December 2021 - December 2022 | Ukraine

FullStack developer
